Dear George Leopold,

10/24/75

Letters like your recent mean much to Jean & me. I'm delighted at the response to a rational, non-paranoid approach, one that does not rip off the minds of the current college generation. Jean & I are almost alone in this approach. With the work I have already done, esp. in what you will see in Post Mortem, we will take this apart unless the increases & savings of the commercializers & self seekers turn the Congress off.

There are significances to the LHO ⇒ Autry letter & its destruction but when I'm flat on my back & have to get ready for Post Mortem I can't now go into them. Perhaps when I'm able to travel again I'll be out there.

Post Mortem is being printed. 660 pp, almost 20 facsimiles + pix, 8/10.25 by virtual mail. With me laid up my wife will be overloaded. However, we are having a special envelope made for the book. When & that is here & she include a mailing label I'll be able to package them & they then may go out in the next mail.

Jim, as you now know, is great. We need more Congs like him.

You are also fortunate to have Dave Wine. Faculties need more like him.

Thanks and best regards

Harold
